will be Announced as per government notification**

BRIEF HISTORY OF THE LITTLE FLOWER HOSPITAL

L F Hospital was born out of the vision of Arch diocese of Ernakulam and is named after Sr. Theresa of Lisieux who is the patron saint of the Hospital.

The hospital had a humble beginning in 1936 and was renowned for its excellent ophthalmic care. Later the board of trustees recognised the need of qualified professionals and visualised an academic institution which became a reality in 1994. Little Flower Hospital and Research Centre is not a profit oriented organisation and is registered as a charitable trust. It is a 690 bedded multi speciality hospital with NABH accreditation. It also imparts training in various fields of Medical, Paramedical and Nursing care.

LITTLE FLOWER INSTITUTE OF MEDICAL SCIENCES AND RESEARCH (LIMSAR)

LIMSAR, the daughter concern of LF hospital was found with the vision to train compassionate and caring professionals through excellence in teaching, patient care and medical research. We strive to reach out to the star of perfection through an earnest academic pursuit for excellence and our efforts to blossom into service through creative and empathetic involvement in the society to transform it.

LIMSAR is a nurturing ground for an individual's holistic development and our students learn through meticulous and rigorous academics along with a balanced focus on co-curricular activities.

LIMSAR emerged as the foremost self-financing college in Kerala with the aim to provide educational opportunities that are responsive to the needs of the community. The inception of LIMSAR under MG University in 2005 was an important milestone on the history of LIMSAR. In 2010, Govt. of Kerala unified all the health sciences under one roof as KUHS. LIMSAR became a part of it and is currently one of the leading colleges in Kerala.

The college is well equipped with modern infrastructure; technology enabled classrooms and advanced laboratories. Currently, LIMSAR offers degrees in Hospital Administration, Optometry, Physiology and Physiotherapy

VISION

"Transforming Lives through Continuous Quality of Learning"

DEPARTMENT OF OPTOMETRY

Optometry as a career is the healthcare profession that is autonomous, educated, and regulated (licensed/registered), and optometrists are the primary healthcare practitioners of the eye and visual system who provide comprehensive eye and vision care, which includes refraction and dispensing, detection/diagnosis and management of disease in the eye, and the rehabilitation of conditions of the visual system

The department of Optometry at Little Flower Hospital and Research Centre was established in 1994 under MG University and was later affiliated to Kerala University of Health Sciences for conducting Bachelors in Optometry and Masters in Optometry and is one among the few institutions attached to a Super Specialty Hospital.

LIMSAR has excellent educational facilities with well-equipped infrastructure, trained and experienced faculties, fully equipped clinical demonstration and practical rooms and vast collection of books and journals in the field of Optometry.

Students experience intense teaching sessions, extensive clinical exposure and intensive research environment. The standard education pattern and training help the students to achieve quality education, practical skills and have placed themselves with their proficiency in various sectors in India and abroad.

MASTER OF HOSPITAL ADMINISTRATION (M.H.A)

Health is a basic and one of the primary needs of each human being. Hospitals are the key healthcare delivery institution. Hence, it needs to be highly responsive to the community's health needs & service expectations. This makes healthcare a serious business and it takes a strong, compassionate & skilled decision maker to run a healthcare organisation. Work environment in a hospital is inter dependent & inter disciplinary and it is the hospital Administrator who determines the fate of a Healthcare organisation. This sense of responsibility makes Hospital Administration one of the most challenging and rewarding career choices.

LIMSAR, Department of Hospital Administration under the aegis of Little Flower Institute of Medical Science & Research believes in creating a multicultural and varied environment for students to learn and develop in & works towards mining the best that each student has within himself or herself. We began in the year 2006 providing intensive training for hospital administration aspirants.

We have over a decade of experience imparting adequate administrative skills by training, developing & moulding them to face the day to day challenges in hospitals.

COURSE HIGHLIGHTS

- Imparting training in Hospital and healthcare industry
- Focus on holistic development by striking a balance between practical and theoretical knowledge.
- Unique teaching Methodology.
